

This document outlines a plan of action for the next five years at Urban Ventures.

It states who we will serve, our model for driving change, and what we will hold ourselves accountable to achieve.

### A call-to-action from Urban Ventures' CEO

Once a vibrant epicenter of economic vitality, some neighborhoods south of downtown Minneapolis have struggled for decades. On one hand, since Urban Ventures opened its doors in 1994, crime and violence have decreased; small, medium and large companies have reemerged to provide employment to many in the community; and "Crack Alley" (along Fourth Avenue, near Lake Street) is no more.

### But despite progress over the last 25 years, major challenges persist.

The majority of adults in the part of South Minneapolis we serve grew up in poverty, and data show their children are likely to be poor, too. It's part of the vicious cycle—without access to high-quality education, kids born into poverty are more likely than not to remain trapped there for their whole lives.

# Research shows that education is the brightest hope for breaking the cycle of generational poverty.

But kids born into poverty aren't likely to succeed in school without support that targets their family situations<sup>1</sup>, wellness, and safety.

It is often said that it takes a village to raise a child—Urban Ventures is uniquely equipped to be that village for youth in our community.

Because we believe so strongly in the impact of educational attainment on lifelong success, we have established a new audacious, overarching goal to unite our efforts:

# Urban Ventures will do whatever it takes to prepare and send every child in our 25-block core area to college by 2040.<sup>3</sup>

We chose this goal because the single greatest mechanism for breaking the cycle of poverty is a college education.<sup>4,5</sup> For us, being a faith-based organization means doing whatever it takes to follow the example of Jesus by serving all people who come through our doors with love and respect, regardless of their beliefs.

The purpose of this document is to outline the steps we are taking to retool our efforts in pursuit of this new common objective. Twenty-five years in the same part of South Minneapolis gives us a strong foundation on which to build. But, if we are to succeed in reaching our new goal, it's clear we must become more focused and united than ever before.

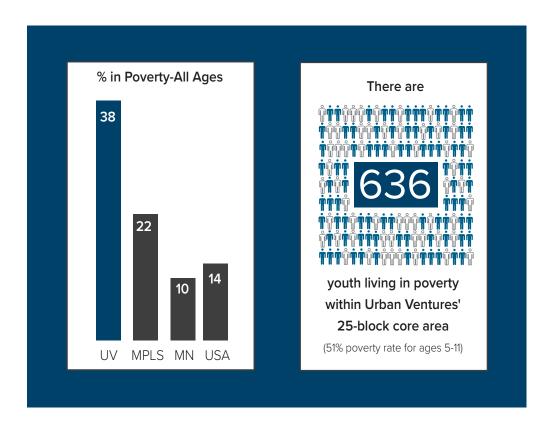

I hope you will join us as we enter a new chapter in service to our wonderfully diverse, but chronically under-resourced community in south Minneapolis. We simply cannot—and will not—achieve our goals without you.

Faithfully,

David Hawn, President and CEO, Urban Ventures

The neighborhood we serve is beautiful, diverse, and filled with possibility.

It's also chronically poor—a problem we find unacceptable.

**62%** of families make less than \$35,000/yr. (average family size is 4.5) (Phillips community) 36% MPLS, 27% MN

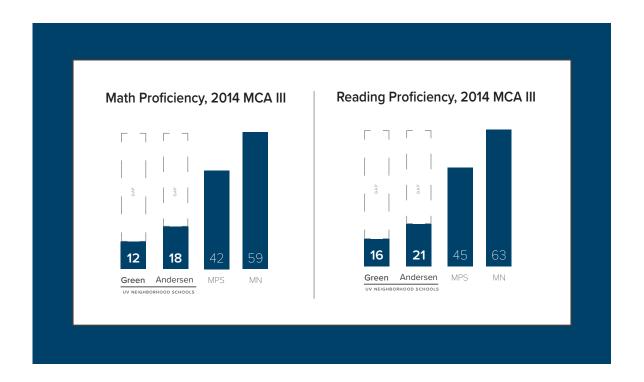

**57%** of families are headed by a single female with no husband present (Phillips community) 25% MPLS, 10% MN

**Over 50%** of residents lack Englishlanguage proficiency (30% are foreign-born) 6% MPLS, 2% MN Many children in our neighborhood are born into broken homes and are sent to broken schools.

It's a trap that breeds a lack of hope.

## // THE NEED Complex factors cause children to underperform in neighborhood schools

**40% dropout rate** for students of color in neighborhood high schools. 1 in 10 MN dropout rate

**98%** of children at Green Central, our closest school, qualify for free/reduced lunch. 57% MPLS, 41% MN

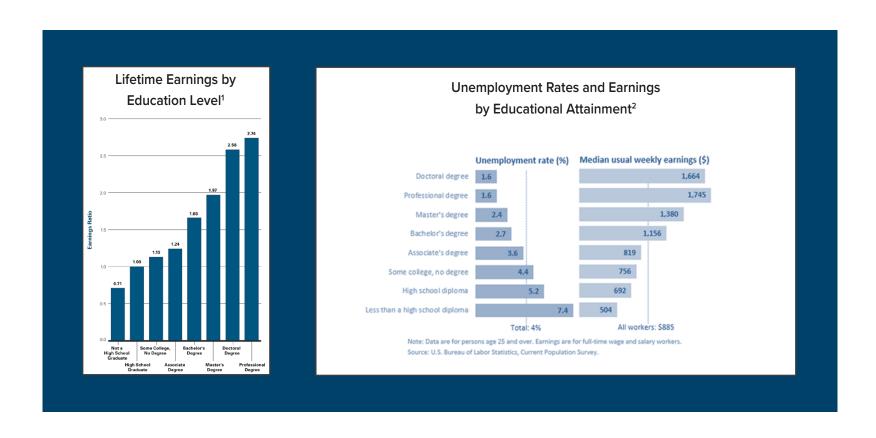

**UV kids 2x as likely to lack** medical insurance, transportation, and quality housing than the MPLS average.

The data are clear that educational attainment is key to increasing lifetime income, and that increasing earning potential is key to empowering individuals to break free from the cycle of poverty.

## // THE NEED Low educational attainment leads to low earnings and generational poverty

\$18,404

Median household income in our neighborhood (Phillips community) \$51,480 MPLS, \$61,492 MN

**4x** higher unemployment rate than Minneapolis as a whole.

12% UV, 3% MPLS, 4% MN

**1 in 5** adults in our core area has less than a **9th grade** education.

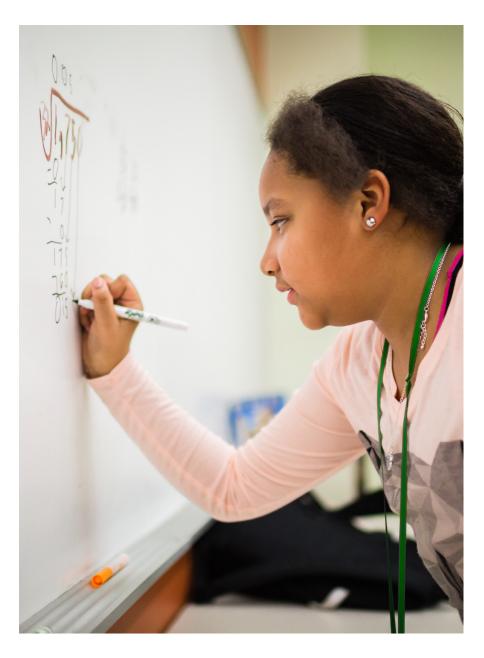

(Phillips community)

¹College Board; 2009; https://trends.collegeboard.org/education-pays/figures-tables/lifetime-earnings-education-level | ²US Bureau of Labor Statistics; 2016; https://Data pertains to Urban Ventures' 25-block core area unless otherwise noted. Other statistics: US Census Bureau American Community Survey, 2015, accessed via MN Compass.org

Therefore, our response as an organization is to pursue our vision of "a city without poverty" by adopting a bold new goal—to prepare and send every child in our neighborhood to college\*.

Because education changes everything.

\*Used in this instance, "college" includes multiple forms of postsecondary education including four-year schools, two-year schools, military service, and vocational training programs capable of equipping students for a successful transition to a career and productive adult life.

To prepare and send every child in our neighborhood to college by 2040.

A bold and audacious goal, this impact statement defines what we strive to achieve and will hold ourselves accountable for, because we know that education changes everything.

### MISSION STATEMENT

Educating children, strengthening their families, and building a healthy community.

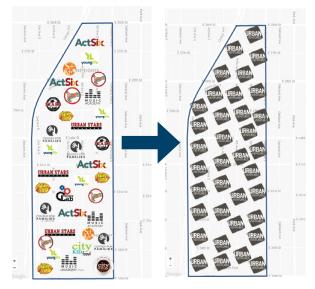

These three, inextricably-linked activities define our path to achieving our vision and generating our intended impact.

# A city without poverty.

Our vision is what stretches us, inspires us, motivates us, and dares us to dream of what is possible.

To reach our goal, we are uniting all our existing programs, resources, and know-how around this single initiative.

By combining 10 disparate programs into one program with a common objective, we will be better able to holistically support youth, their caregivers, and the broader community.

An independent survey validated that too many program "brands" cause confusion and are not in alignment with Urban Ventures' vision for a holistic, seamlessly-integrated service organization.

Over the last 25 years, Urban Ventures has developed a diverse portfolio of 8-12 community programs, each with its own identity and each focused on addressing one particular aspect of breaking the cycle of poverty. But findings from a survey administered by an independent third party concluded that Urban Ventures participants, funders, and community groups often do not understand that Urban Ventures' offerings are interrelated and administered by the same parent organization.

# Therefore, effective July 1, 2017, Urban Ventures' various initiatives are all uniting under our organizational name: "Urban Ventures."

Urban Ventures' focus will be on providing comprehensive, coordinated, cradle-to-career support for youth living in a 25-block core area of South Minneapolis, with the ultimate goal that all children will complete a post-secondary program and become leaders in their community.

Urban Ventures will provide youth with an academic pipeline from birth through college, plus wraparound support for the entire family, including athletics, nutrition education, parenting classes, and referrals to a strong network of social service partners.

# Students participating in Urban Ventures become eligible for a full-tuition, full-need college scholarship to one of our partner universities.

We are currently able to award up to 40 full-tuition, full-need scholarships each year through four partner schools. We anticipate adding additional schools—including those that focus on vocational training—to meet our goal of sending all graduating high school seniors from our core area to college each year. Based on recent census data, we expect this number to be 65-85 students each year. Enrollment in Urban Ventures will remain open to all; however, preference will be given to families residing in our organization's 25-block core area of south Minneapolis.

### **Urban Ventures Program Components: Youth Education**

Early Learning Center, K-8 Charter School, K-12 year-round extracurricular college prep program, College and Career Office

### Program Components: Family, Health, Community

Center for Families, athletics, nutrition education, community outreach

We believe that students and families who remain active in multiple program components over time will develop academically, physically, emotionally, and spiritually, ultimately increasing their likelihood of receiving a full-tuition scholarship.

To succeed, we must ensure that each child has access to a **quality education** combined with a robust network of **family and community supports**.

A no-excuses, whatever-it-takes approach to breaking the cycle of poverty.

### Long-term outcome:

Youth in 25-block core area graduate from college, transition to career, break the cycle of poverty, and return to lead in their home community

Necessary pre-condition:

**Quality Education** 

INDICATORS: Kindergarten readiness; math/reading proficiency; high school graduation, post-secondary completion

Necessary pre-condition:

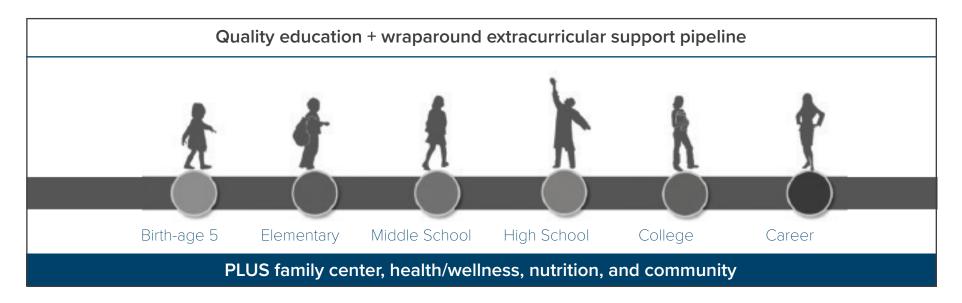

**Strong Family** 

INDICATORS: Families stable across 12 key areas, savings account in child's name, time reading to child

Necessary pre-condition:

**Healthy Community** 

INDICATORS: 60+ min of physical activity daily, 5+ servings of fruit and vegetables, feel safe walking to and from school

#### SEE APPENDIX I FOR PAST VERSUS FUTURE BUDGET ALLOCATIONS BY SERVICE TYPE

In order for Urban Ventures to objectively prove its theory of change—notably, that a broad range of *both* in-school and out-of-school supports are needed to improve outcomes for youth—the organization must be able to quantifiably demonstrate the relationship between specific, interrelated activities (e.g. tutoring, music class, nutrition demonstrations, mentoring, sports camps, etc.), and long-term life outcomes (e.g. academic proficiency, college graduation, and health/wellness outcomes).

As an organization, we are reorganizing our service delivery model and phasing in the additional components we need to support our theory of change.

### **NEW COMPONENTS:**

Early Learning Center Academy (K-8 charter school) College and Career Center

Family enrolls together in Urban Ventures with the goal of post-secondary graduation for every child in the household.

Family profile created in database; stability assessed across 12 key areas. Baseline proficiency testing for children.

2

Support plan/goals drafted and reviewed by cross-department service coordination team.

Every member of the family is connected to specific Urban Ventures' services, offerings, and referrals

3 FOR YOUTH

FOR BOTH YOUTH AND PARENTS/CAREGIVERS

FOR PARENTS/CAREGIVERS

Birth-Age 5 Early Learning Center (EMERGENT) K-8 Academy
UV Charter School
(EMERGENT)

K-12 after-school Tutoring/Mentoring/Arts

Physical Activities Athletics + Wellness

Nutrition Education

Family Center Caregiving Classes

**2x/year:** proficiency tests readministered; progress assessed and plan updated.

**Grade 9:** Every child enrolled in College and Career Center; post-secondary plan drafted. **Grade 12:** Every child applies for scholarships, graduates HS, and attends college

5

Child graduates from college and returns to live, work, start a family, and serve others in their home community.

We'll focus our efforts on families living in a 25-block core area of South Minneapolis.

- **597** Family units in core area<sup>1</sup>
- **106** Families already involved in one or more UV service/ offering<sup>2</sup>
- 263 Latino families1
- **191** African-American families<sup>1</sup>
- **325** Families led by single mothers<sup>1</sup>
- **300** Families with limited English spoken at home<sup>1</sup>

Core area boundaries are: I-35W to the west, Portland Avenue to the east, 35th Street to the south, and 26th Street to the north. Urban Ventures' existing/baseline market penetration rate within the 25-block core area is ~15%, with the goal to enroll ~85% of families within five years. Urban Ventures does not seek to exclusively serve only residents from the core area, so long as the organization meets its targets for market penetration.

This 25-block core area of South Minneapolis will become the primary focus for Urban Ventures. According to 2015 survey data, there are approximately 1,300 children age birth-19 living in the core area. Over 50% of these youth live in poverty. Accordingly, Urban Ventures is pursuing an aggressive market penetration strategy to reach children and their families early and often with supports tailored to each stage of development.

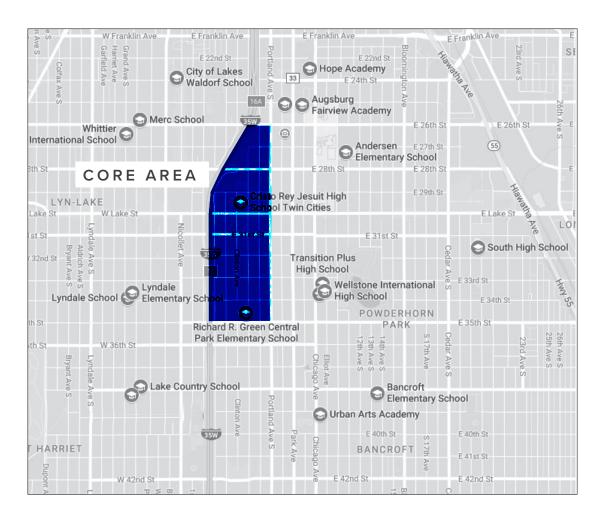

Consistent support at earlier stages of development increases the odds of success for each child, and strengthens the fabric of the underlying community. Using the latest available data, targets consistent with those used by other successful cradle-to-career community development organizations have been developed:

Age	FY18	FY19	FY20	FY21	FY22	FY23
Birth-5	20% (78)	40% (155)	60% (233)	70% (272)	75% (291)	80% (310)
5-14	25% (159)	35% (223)	45% (286)	50% (318)	55% (350)	60% (382)
15-19	15% (44)	20% (59)	25% (74)	30% (89)	35% (103)	40% (118)
YOUTH SERVED/YEAR	281	437	583	679	744	810

To ensure the organization meets its market penetration goals, Urban Ventures has formalized a community outreach initiative. Its purpose is to catalyze the neighborhood, making sure every single family knows they have access to Urban Ventures low-to-no cost services.

Twice each year (fall and spring), the community outreach group will draft and execute a neighborhood marketing campaign to increase awareness and to promote the benefits of Urban Ventures to local residents. Activities include door-knocking, mailers, distributing yard signs, local public relations, buying local media advertisements, etc., and will be funded by an organization-wide budget allocation for community outreach.

And we will develop plans for supporting the schools children in our 25-block core area attend, with specifc focus on shools within our 25-block core area.

### Core area Schools

Green Central Park Elementary

Public, K-5, 500 students

Cristo Rey Jesuit High School

Private, 9-12, 360 students

Urban Ventures Academy (emergent)

Public charter, K-8, 300 students

#### Additional Schools within one mile of UV's campus

Anderson

Augsburg Fairview Academy Bancroft Elementary School

City of Lakes Waldorf School

Hope Academy

Lake Country School

Lyndale School

Merc School

South high School

Transition Plus High School

Urban Arts Academy

Wellstone International School

Whittier International School

Urban Ventures Academy will enroll up to 200-300 K-5 children; however, with over 1,300 children living within our 25-block core area, partnering with neighboring public, charter, and private schools will be essential to achieving our goals.

While Cristo Rey Jesuit High School and Green Central Elementary are the two schools within our 25-block core area—and UV has strong relationships with them—we have students living in our core area attending schools adjacent to our core area. We have begun reaching out to them to develop strategies for supporting and augmenting their extra-curricular offerings (see map at left for schools in close proximity to our campus).

We must also work hard to ensure 8th grade students in the Urban Ventures Academy successfully transition to high school. We will do this by establishing strategic partnerships with high performing local high schools that offer potential alternatives for neighborhood families. Cristo Rey Jesuit High School, Hope Academy, and Hiawatha Academy are three potential partners.

We know that success will require focus. Because we have limited resources with which to pursue our mission, we will shrink or eliminate activities that do not directly advance our mission.

### Reprioritizing programming for maximum impact

Aligning Urban Ventures' limited resources to maximize our impact is essential. Each Urban Ventures initiative delivers services whose benefits contribute toward the fulfillment of our mission in some way. But when resource allocation decisions have to be made between numerous activities—all of which do some good—determining the activities and programs that do the most good is a difficult, controversial task.

But the stakes have never been higher, both for the individuals Urban Ventures currently serves as well as for families who have yet to encounter our organization.

Thus, it is vital that Urban Ventures concentrate its investments into activities that contribute directly to core outcomes.

### Urban Ventures is making the following changes to our programming:

- **1. Former Learning Lab program:** Restructured into a new K-12 after-school program with a focus on college preparation (will be separate from charter school).
- 2. Former Young Life program: Restructured into aforementioned K-12 after-school program.
- **3. Former Center for Fathering and Siempre Padres programs:** Restructured into Urban Ventures Center for Families<sup>1</sup>, sharing a common facility at 3041 4th Ave. by 4/1/2018.
- **4. Former CityKid Enterprises/Farm/Food program:** Restructured into Urban Ventures Farm/Nutrition Services
- **5. Former CityKid Java coffee company/CityKid enterprises products:** CityKid Java restructured into Urban Ventures Coffee Co. CityKid Enterprises restructured into Urban Ventures Co.—social enterprise product sales and management transitioned to the Marketing Department.
- **6. Pathways initiative (court-mandated training for gun offenders)**: Discontinued at the end of current contract period.
- 7. Kitchen of Opportunities: Management of the facility transitioned to CityView Church.

Clients receiving services through programs no longer supported by Urban Ventures will receive referrals to other reputable organizations.

We will increase accountability and measure our progress by tracking **10 organization-wide performance indicators.** 

## IV // MEASURING WHAT MATTERS

### Organizational key performance indicators

#### YOUTH INDICATORS<sup>1</sup>

### INDICATOR 1: Kindergarten readiness

# and % of children age 0-5 within Urban Ventures' core area participating in centerbased or formal home-based early learning programs or preschool.

Goal: 90% (all goals by year 5)

### INDICATOR 2: Kindergarten readiness

# and % of children age 3-5 within Urban Ventures' core area with age-appropriate functioning across multiple domains of early learning at the beginning of the school year. Goal: 90%

### INDICATOR 3: Academic proficiency

# and % of K-12 students within Urban Ventures' core area at or above grade level in math and reading, as assessed using Urban Ventures' academic proficiency software. Goal: 80%

#### INDICATOR 4: High School Graduation

% high school graduation rate of core area students. Goal: 80%

#### INDICATOR 5: Post-secondary degrees

# and % of core area youth who obtain postsecondary degrees, vocational certificates, or other credentials. Goal: 70%

#### FAMILY AND COMMUNITY INDICATORS

### INDICATOR 6: Physical activity

% of Urban Ventures' participants who get 60+ min of physical activity daily. Goal: 70%

#### INDICATOR 7: Nutritional wellness

% of Urban Ventures' participants getting 5+ servings of fruits and vegetables daily. Goal: 70%

### INDICATOR 8: Neighborhood safety

# and % of Urban Ventures' youth who feel safe at school and traveling to and from school, as measured by an internally administered school climate assessment. Goal: 90%

### INDICATOR 9: Parenting: Support child's learning

# and % of Urban Ventures' parents or caregivers who report that they read to their child three or more times a week (children age 0-8) or encourage their children to read books outside of school (children age 9-18). Goal: 90%

### INDICATOR 10: Parenting: Financial literacy and savings

# and % of Urban Ventures' parents or caregivers who open a savings account in their child's name *and* report talking with their child about the importance of college. Goal: 90%

### SEE APPENDIX G FOR A LIST OF KEY PERFORMANCE INDICATORS BY SERVICE TYPE.

Our expanded use of data will be facilitated by investment in a new **centralized database system.** 

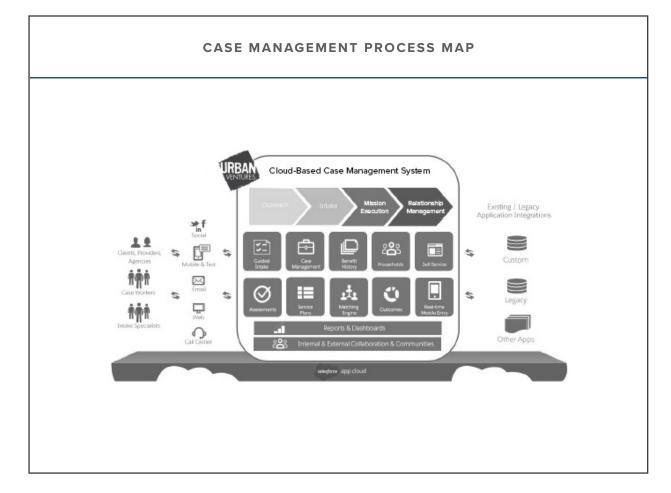

Each year, Urban Ventures' management will analyze the data coming out of our program to ensure our services have the resources to deliver on their goals.

Twice-annual meetings for staff and stakeholders will allow for a data-driven assessment of our progress.

To aid outreach efforts, every housing unit within Urban Ventures' core area will be automatically populated in the organizational database as a prospective family.

Outreach workers engaging in door-knocking or other engagement activities enter interactions with neighborhood families directly into the system from their smartphones and assign follow-up tasks to Urban Ventures' staff members.

We know that in order to accomplish our ambitious goal, we must find and develop the next generation of great community leaders.

### Developing the next generation of leaders

#### DEVELOPING THE NEXT GENERATION OF LEADERS

To achieve our mission, we will need local leaders who are committed to carrying forward the work of Urban Ventures for years to come. It is our responsibility to find and nurture this next generation of leaders, equipping them with the tools they need to build a community where everyone thrives.

**ACTION ITEM 1:** All extracurricular programming will include

character and leadership development curricu-

lum and activities.

**ACTION ITEM 2:** With sufficient training and supervision, high

school and college students will be asked to work with younger children as mentors.

Stipends will be provided as appropriate.

Mentoring younger students will be mandatory

for all Act Six scholarship recipients.

**ACTION ITEM 3:** Urban Ventures' internship program will be

enhanced and formalized to work with business and nonprofit leaders to provide leadership development opportunities for upper class high school and all college-age students from within

the 25-block core area.

**ACTION ITEM 4:** Urban Ventures will hire at least one full-time

employee each year from each Act Six

graduating cohort.

We must continue to support our staff and increase their capacity to create change.

### Staff development initiatives

#### STAFF DEVELOPMENT ACTION ITEMS

**ACTION ITEM 1\*:** Every staff member will be provided with quanti-

tative goals/metrics for their role and a written explanation of how their contributions connect to

overall organizational strategy.

**ACTION ITEM 2\*:** A modest bonus plan will be used to reward top

performers.

**ACTION ITEM 3\*:** Formalized leadership training will be provided

to emerging UV leaders.

**ACTION ITEM 4:** Staff positions that can be effectively filled by

volunteers will be evaluated/eliminated annually.

**ACTION ITEM 5:** Communication and strategic alignment will be

enhanced by continuing UV's new two-tiered leadership structure (Tier 1: executive leaders, Tier 2: program leaders) with direct access

to, and involvement of, the CEO.

**ACTION ITEM 6\*:** All nonprogram management and staff will be

required to spend at least 100 hours/year in direct programming support as a part of normal

work hours.

**ACTION ITEM 7\*:** All management team members and nonpro-

gram staff will be required to participate in fund raising by raising 10%+ of their base salary<sup>1</sup>.

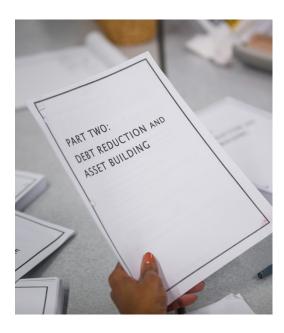

(Major gift officers require a higher percentage.)

ACTION ITEM 8\*: All staff are required to provide a list of 10 new

prospective donors or volunteers each year.

None of our work will be possible unless we are conscientious stewards of the resources entrusted to us by our generous donors.

### Financial core principles

At the start of calendar year 2017, Urban Ventures had an operating debt of \$1.85 million, with monthly expenses routinely higher than revenues. This was both inconsistent with our organizational values as well as unsustainable. Through a combination of real estate transactions, organizational right-sizing, and programmatic realignment, Urban Ventures will begin FY18 (July 1, 2017) with a modest cash reserve, a balanced budget that keeps spending levels within a relatively conservative revenue forecast, and a plan to eliminate all remaining debt by the end of calendar Q3 2017.

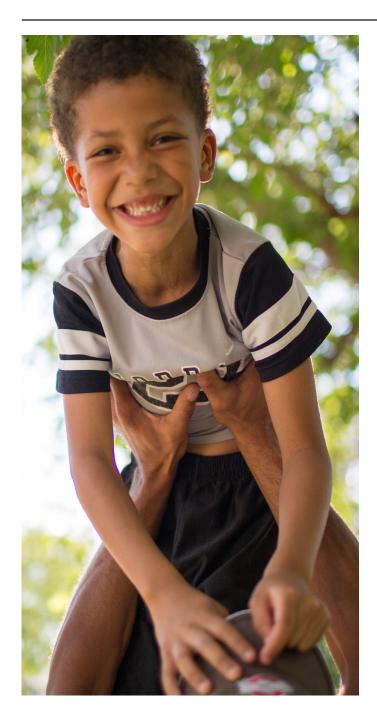

# Over the term of this strategic plan, we resolve to adhere to the following fiscal core principles:

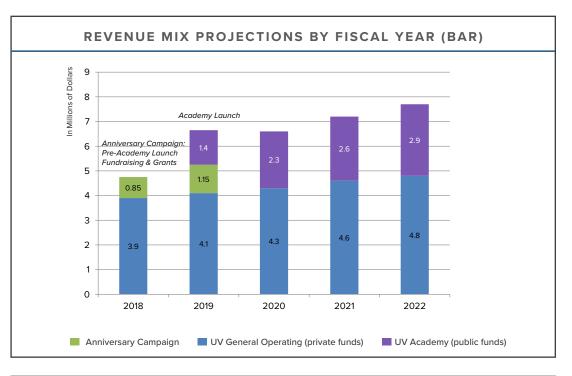

- 1. We will draft and update an annual development/fundraising plan that provides the necessary financial resources to support programs and service offerings consistent with our mission.
- 2. We will produce and review financial statements regularly (monthly for executive leadership, quarterly for Finance Committee and Board of Directors).
- 3. We will utilize a strategic budgeting process that reflects organization-wide objectives.
- 4. We will develop and approve an annual budget and regularly monitor it to evaluate and respond to any material variations.
- 5. We will maintain a diverse resource portfolio containing both liquid and illiquid assets, analyzing our mix of public and private funding annually, and reviewing a contingency plan for responding to unexpected reductions (or increases) across each revenue stream.
- 6. We will maintain a line of credit to hedge against the cyclical nature of fundraising fluc-

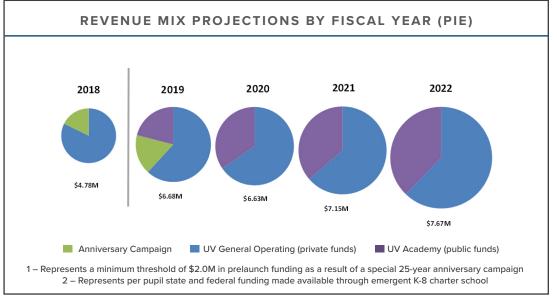

tuations, but will always strive to be cashflow positive at the end of each fiscal year.

- 7. We will maintain formal internal controls governing all financial operations.
- 8. We will pay our bills in a timely manner.
- 9. We will not use restricted funds to subsidize current year operations.
- 10. We will maintain specific plans to meet reporting requirements for any cash or in-kind arants.
- 11. We will prepare and disseminate an annual report which includes statements of our financial position.
- 12. We will draft and adhere to Board policies and guidelines for management of lines of credit, endowment funds, and other secured/unsecured funds.
- 13. We will develop and maintain a comprehensive evaluation system to measure and report the impact of our work to grantmakers and other stakeholders.
- 14. We will thank and receipt donors in a timely manner.

Over the next five years, we will work hard to grow and diversify our sources of revenue.

Thank you for joining Urban Ventures on this journey.

Our work is not possible without you.

The neighborhood Urban Ventures serves is beautiful, diverse, and filled with possibility. It's also chronically poor. And that's a problem we find unacceptable. Many children in our neighborhood are born into broken homes and are sent to broken schools. It's a trap that breeds a lack of hope.

The data are clear that educational attainment is key to increasing lifetime income, and that earning potential is key to empowering individuals to break free from the cycle of poverty.

Therefore, our response as an organization is to pursue our vision of "a city without poverty" by adopting a bold new goal—to prepare and send every child in our neighborhood to college—because education changes everything.

To reach our goal, we are merging all our existing programs, resources, and know-how into a single initiative. By combining our 10 disparate programs into one program with a common objective, we will be more capable of holistically supporting youth, their caregivers, and the broader community.

We're breaking down departmental boundaries so that our programs can work together to ensure that every child has access to a quality education combined with a robust network of family and community supports. It is truly a no-excuses, whatever-it-takes approach to breaking the cycle of poverty.

We will be phasing in the additional components we need to support our theory of change. New initiatives will include an Early Learning Center, K-8 Academy (charter school), and College and Career Office

We'll be focusing our efforts on families living in a 25-block core area of South Minneapolis: Our core area. We know that success will require focus not only geographically, but also with the services we provide. Because we have limited resources with which to pursue our mission, we will shrink or eliminate activities that do not directly advance our mission.

To increase accountability and our ability to measure our progress, we will begin tracking 10 organization-wide performance indicators in a new centralized participant database system.

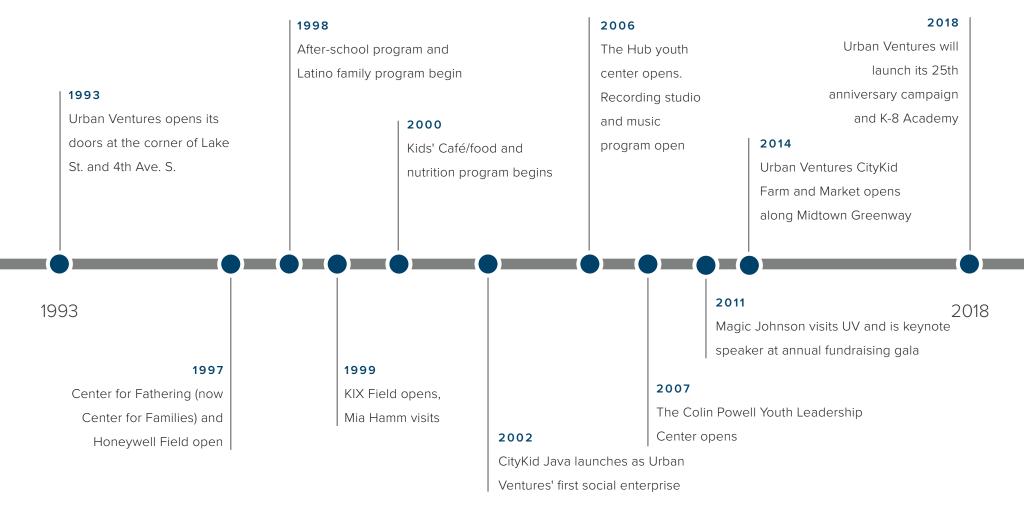

We are also taking numerous steps to find and develop the next generation of community leaders while continuing to support our staff and increase their capacity to create change.

We know that none of our work is possible unless we are conscientious stewards of the resources entrusted to us by our generous donors; so, over the next five years, we will be working hard to grow and diversify our sources of revenue.

We are thankful that you are joining Urban Ventures on this journey. Truly, our work will not be possible without you.

### **REMEMBER "MURDERAPOLIS"?**

The tag was coined in the early-1990s around the time crack was ubiquitous and gang turf battles were ripping Minneapolis apart, bumping local murder rates far past those of cities with more dangerous reputations. Urban Ventures was conceived as a bold response to a community in dire need. Co-founders Art Erickson and Ralph Bruins worked collaboratively with the community to purchase run-down buildings near the corner of 4th Ave. S. and Lake St., renovate them, and launch community-building programs. The rest, as they say, is history.<sup>1</sup>

### ORGANIZATIONAL STATEMENT OF FAITH

Urban Ventures is a faith-based organization. It is biblically-based faith that motivates the work we do, leading us to serve all people and treat everyone with respect and love regardless of their beliefs. Our faith leads us to action; we strive to make our neighborhood one that reflects the justice and love that characterize God's dream for the world. We trust in the power of God to use the seeds we plant in the hearts of those in our community to produce fruitful, long-term change.

### Additional Core Values

#### INTEGRITY

Urban Ventures values Integrity, as an organization and individuals; we believe in honesty, in keeping our promises, living out what we say, using our resources well, and being transparent about our successes and our failures. We strive to be an organization that is worthy of the trust and respect of our participants and communities.

#### **EMPOWERMENT**

Urban Ventures values Empowerment, through maximizing the selfutilization of gifts and abilities of our staff and participants to use their talents for the good of themselves, others, and their communities; we believe empowerment comes through education, equal opportunities, mentoring, employment, access to tools and resources, faith in God and one's own abilities, and the support of others.

#### **TRANSFORMATION**

Urban Ventures values Transformation, the positive, permanent change desired by an individual or family in order to live better. We believe that transformation happens reciprocally, so that by walking together, staff, donors and participants are all changed for the better.

#### **DIVERSITY**

Urban Ventures values Diversity; we believe that diversity of background and perspective makes us a stronger united community where every individual and family can be included, appreciated and made to feel at home.

### COMMUNITY

Urban Ventures values the fellowship of diverse individuals, families and organizations, coming together to empower and transform themselves and each other. We believe that community is the solution to transforming our neighborhoods, making the places where we live and work vibrant, inclusive, and thriving.

#### SUSTAINABILITY

Urban Ventures values a long-term commitment to its staff, participants and the communities it serves. Thus, we seek Sustainability, the capacity for our programs and organization to be consistent, building a legacy of service to the families and communities we serve.

Urban Ventures will shift from using program-specific logos to using Urban Ventures' corporate logo as the only mark/identifier of programs and activities overseen by the organization.

Kids' Café	Urban Ventures Café

The percentage of enrolled participants residing within Urban Ventures' core area is projected to shift as follows:

In order to reach organization-wide market penetration goals, service directors must adjust the overall proportion of participants residing from within Urban Ventures' 25-block core area. Participation levels from our target market will be combined with data on our 10-key organizational

indicators to serve as our "report card" to stakeholders and the Board of Directors. Urban Ventures has no desire to stop serving currently-enrolled families residing outside the core area; however, future programmatic growth is anticipated to come from inside the core area.

For the next several years, Urban Ventures will focus exclusively on honing our service model inside our core area, which includes aligning current program offerings to serve the whole family, increasing market penetration within the 25-block core area, phasing out certain activities, and bringing financial sustainability to the organization's revenue streams.

After—and only after—acceptable outcomes can be validated within Urban Ventures' primary 25-block core area *and* the organization is in a place of fiscal health will we explore expanding the boundaries of our core area, and updating our service targets accordingly.

When considering expansion, there are a small number of organizations in the Phillips community that are already missionally and operationally aligned with Urban Ventures.

If and when Urban Ventures contemplates an expansion of our core area, we will pursue a joint approach for strategic partnerships and/or mergers with like organizations already doing good work.
